BOSSARD CODE WITH E-SHOP

Uncomplicated scanner solution

Bossard Code with e-shop simplifies the ordering of regularly used items which are stored in bins and labelled with a barcode. The barcode can be scanned and the data will be uploaded to the **Bossard e-shop.** Customized details can be added to the order and additional information are available, such as: availability, technical information and alternative products.
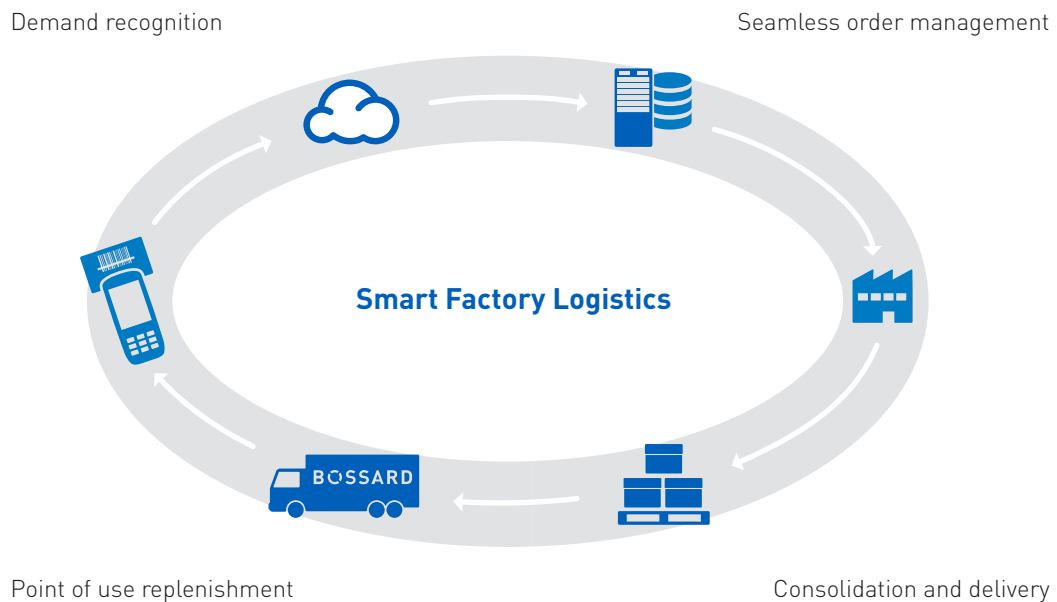

FEATURES

CONNECTED TO E-SHOP

MANUAL ORDER RELEASE

YOUR BENEFITS

- lower your total cost of ownership
- increase your efficiency
- enhance your profitability
- more time for your core activities

BOSSARD CODE WITH E-SHOP

Demand recognition

Seamless order management

Smart Factory Logistics

Point of use replenishment

Consolidation and delivery

ORDER PROCESS WITH BOSSARD CODE

1. When minimum levels are reached, data is recorded with the scanner and imported electronically into the Bossard e-shop.
2. Modifications and additions can be made in the created shopping cart if necessary.
3. The order is then completed in the e-shop.
4. Depending on the pre-defined agreement, we deliver the material either to the dock or directly to the point of use.
