

**FITTING SOLUTIONS**

# Smooth operation with the right fitting

---

## Reducing Total Cost of Ownership

Downtime in plant operations can lead to direct and indirect costs for businesses. Selecting the optimal fitting solution for pipe system reduces the risks of downtime caused by leakages or insufficient flow of working fluid into the right components.

The right fitting solution reduces the costs to repair, maintain or replace the damaged parts.

### Common industrial applications

- Industrial machinery & automation
- Robotics
- Food & beverage
- Bearing components
- Commercial transportation

## FITTING SOLUTIONS

# Smooth operation with the right fittings

---

Our high-quality solutions range from tube to pneumatic fittings and grease nipples that ensure the optimal and efficient flow of fluid, without leakages or corrosion. Listed below are some of our product solutions. The product images shown are for illustration purposes only.

To find out more about our product solutions, do contact us at [pd.asiapacific@bossard.com](mailto:pd.asiapacific@bossard.com).

---

### GREASE NIPPLES

- Durable and safe
- Adaptable with wide range of 1500 different grease nipples
- Leak-proof

---

### GREASE GUNS

- Ensures that grease reaches the greasing point
- Provides effortless application even during high lubricating pressures
- Maximises quality and reliability

---

### PNEUMATIC FITTINGS

- Patented seal system with O-Ring on the thread for perfect seating
- Easy tube installation and release without damage
- Effortless assembly with easy thread feature
