

PRODUCTS & ASSEMBLY TECHNOLOGIES

Light duty products

RIVETS/SPEED RIVETS

- Fast and safe one-sided installation
- High pull through and shear performances
- Boost your productivity with speed rivets

**CLINCHING FASTENERS**

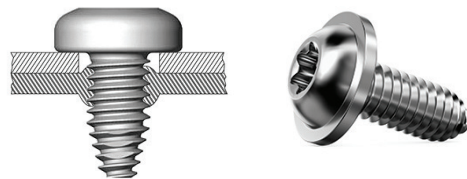

- Fast and clean with double-sided access
- Available in metric and unified sizes for sheet as thin as 0.5mm
- Usable on coated surfaces
- Flush finish- no protrusion on back side

**ELECTRICAL FASTENERS**

- Cable ties guarantee maximum strength and safety
- Compression cable lugs and terminals
- Wiring ducts optimizing cable arrangements
- Grommets protect wires passing through

**SELF-TAPPING SCREWS**

- Simple and safe assembly due to good alignment and low installation torque
- High strength & vibration resistance through a 45 degree flank angle
- Metric compatibility

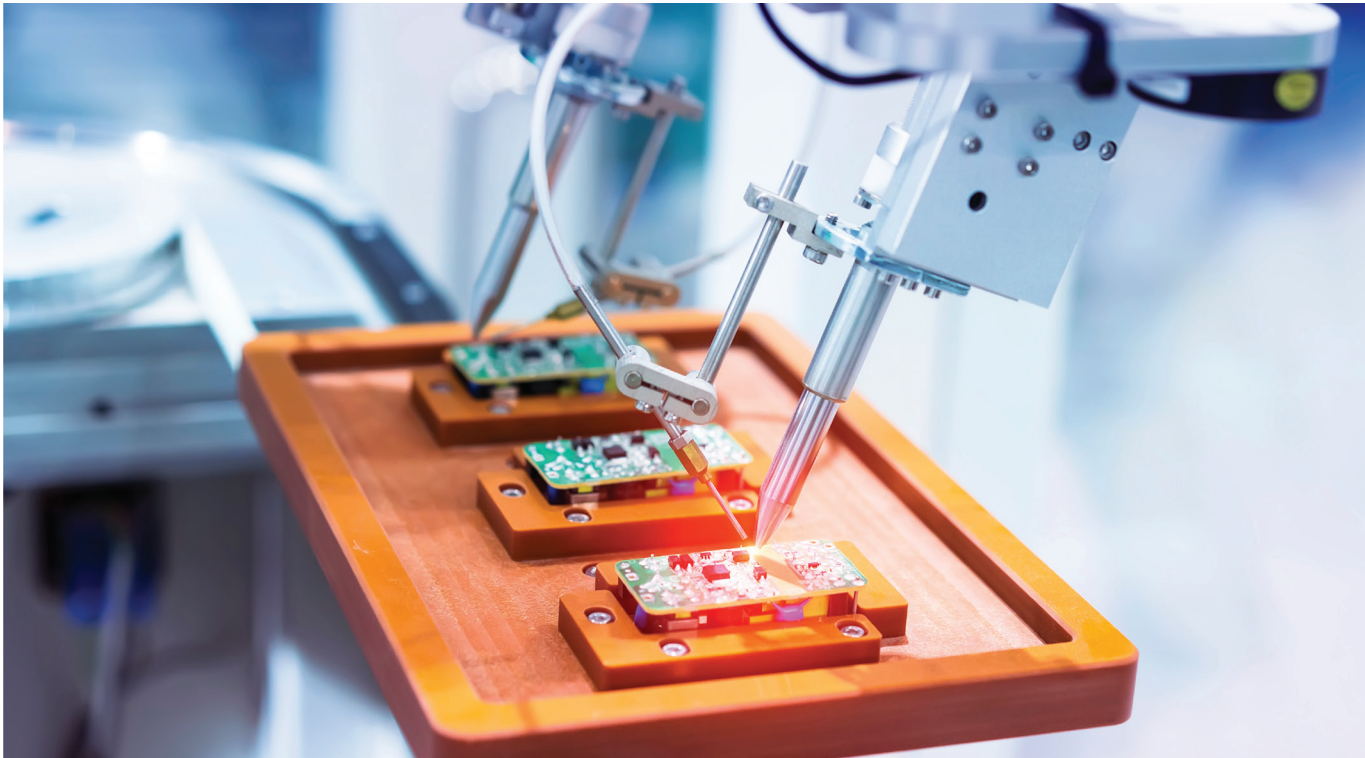

**INSTALLATION EQUIPMENT**

- Available from handheld device to cutting edge, state of the art devices
- Fast, efficient and productive for automatic insertion of hardware
- Low energy consumption, cost saving
