

 $bigHead^{\hbox{\scriptsize $\mathbb{R}$}}$ 

Core Range Overview

«every bigHead® is perfectly engineered.»

### **BIGHEAD®**

# CORE RANGE OVERVIEW

## Product Range | Availability

Head type	B20	B30	B38A		
Head size	Ø 20 mm Head,1.2 mm thick,	Ø 30mm Head, 1.2 mm thick,	Ø 38mm Head, 1.2 mm thick,		
	6 perforation holes (Ø 3.5 mm)	6 perforation holes (Ø 5 mm)	12 perforation holes (Ø 5 mm)		
Product weight	3.7 ~ 11.4 g	6.7 ~ 14.5 g	9.5 ~ 17.5 g		
	Depending on fixing	Depending on fixing	Depending on fixing		
Maximum tensile load 2 ~ 5 kN Depending on fixing		3.5 ~ 6 kN Depending on fixing	3.5 ~ 8 kN Depending on fixing		

- Consistent dimensions over 3 head sizes and 2 material grades – in total 156 variants!
- Supported by application relevant data and test values
- Optimized availability and delivery times
- Fast and easy sample handling
- Simple and proven usability

Fixing	Threaded collar				Threaded stud			
Material _ availability	F2 - Carbon steel			M1 - Carbon steel				
	SF2 - 316 Stainless			SM1 - 316 Stainless				
Head type	В	20 B30	B38A		B20	B30	B38A	
	6			3	4			100
Thread size availability	M4	M5	М6	M8	M4	M5	M6	M8
Thread length availability	5, 10 mm	5, 10, 15 mm	5, 10, 15 mm	10, 15 mm	12, 16, 20, 25 mm			
Product coding examples	g SF2/B20 - M8 x 10 SF2 B20 - M8 x 10 SF2 B20 - M8 x 10 M8 thread → 10 mm long			M1/B30 - M5 x 20 M1 / B30 - M5 x 20 Carbon steel stud + B30 Head M5 thread - 20 mm long

### **BIGHEAD®**

# CORE RANGE OVERVIEW

## Process integration options

It is possible to install a bigHead after manufacturing the parent component, or the bigHead can integrate into the component manufacturing; we

call this "post-process" or "co-process" installation. The Core Range now makes your choice even easier.

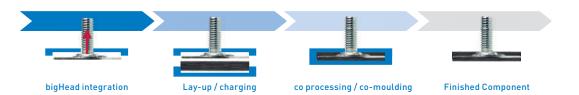

#### Post-process:

Install bigHeads after your manufacturing process

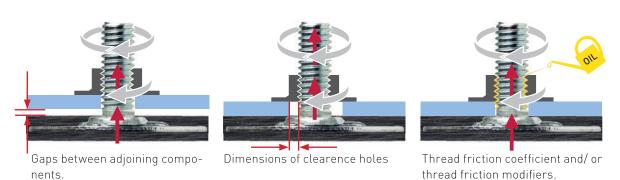

#### Co-process:

Integrate bigHeads during your manufacturing process

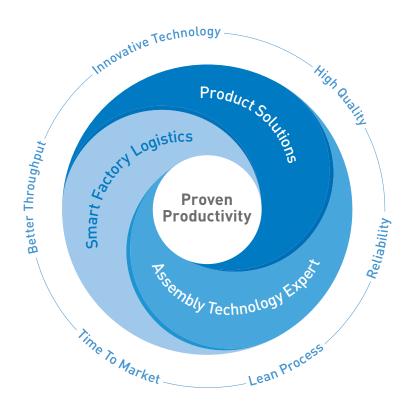

## Assembly design - critical considerations

#### PROVEN PRODUCTIVITY - A PROMISE TO OUR CUSTOMERS

# The strategy for success

From years of cooperation with our customers we know what achieves proven and sustainable impact. We have identified what it takes to strengthen the competitiveness of our customers. Therefore we support our customers in three strategic core areas.

Firstly, when finding optimal **Product Solutions**, that is in the evaluation and use of the best fastening part for the particular function intended in our customers' products.

Second, our **Assembly Technology Expert** services deliver the smartest solutions for all possible fastening challenges. Our services cover from the moment our customers developing a new product, to

assembly process optimization as well as fastening technology education for our customers' employees.

And thirdly, optimising our clients' productions in a smart and lean way with **Smart Factory Logistics**, our methodology, with intelligent logistics systems and tailor-made solutions.

Understood as a promise to our customers, "Proven Productivity" contains two elements: Firstly, that it demonstrably works. And secondly, that it sustainably and measurably improves the productivity and competitiveness of our customers.

And this for us is a philosophy which motivates us every day to always be one step ahead.
