BOSSARD
Proven Productivity

BOSSARD SMARTBIN CLASSIC

Automated intelligence

This unique, fully automated system with sensor monitoring is ideal for supermarket areas and line assembly. SmartBin manages anything from small parts weighing just a few grams to large parts of up to 1,000 kg per palette. Weight sensors ensure continuous online inventory monitoring. Orders are triggered automatically and enable a seamless supply.
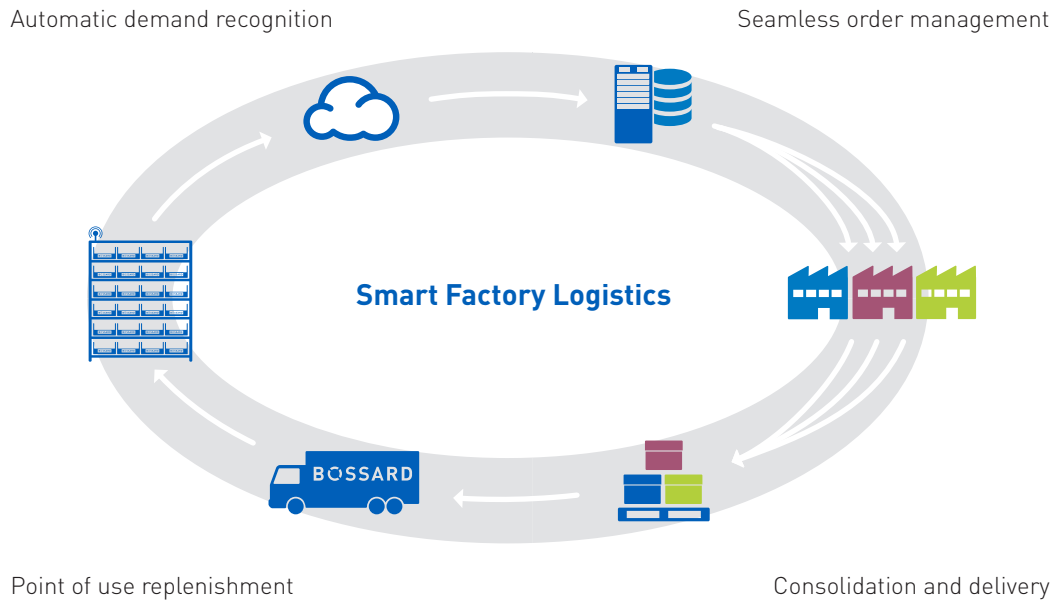

FEATURES

FULLY AUTOMATED

WEIGHT SENSORS – Physical stock information

- maintenance-free
- fast, pro-active reaction when demand is peaking
- lower your total cost of ownership
- absolute reliability

BOSSARD SMARTBIN CLASSIC

Automatic demand recognition

Seamless order management

Smart Factory Logistics

Point of use replenishment

Consolidation and delivery

ORDER PROCESS WITH BOSSARD SMARTBIN CLASSIC

1. The parts are stored as close as possible to the point of use. Weight sensors constantly monitor stock levels
2. Data is automatically sent to Bossard online where it is processed. When the reorder point is reached, replenishment orders are triggered automatically.
3. Bossard consolidates the ordered items into one shipment which is sent to the customer.
4. Depending on the pre-defined agreement, we deliver the material either to the dock or directly to the point of use.
5. SmartBin automatically recognizes box refills and it therefore offers full cycle control.
