

BOSSARD CODE WITH E-SHOP

Uncomplicated scanner solution

This straightforward electronic system, together with the e-shop, offers a customized complete solution

Bossard Code with e-shop simplifies the ordering of regularly used items which are stored in bins and labelled with a barcode. The barcode can be scanned and the data will be uploaded to the **Bossard e-shop**. Customized details can be added to the order and additional information are available, such as

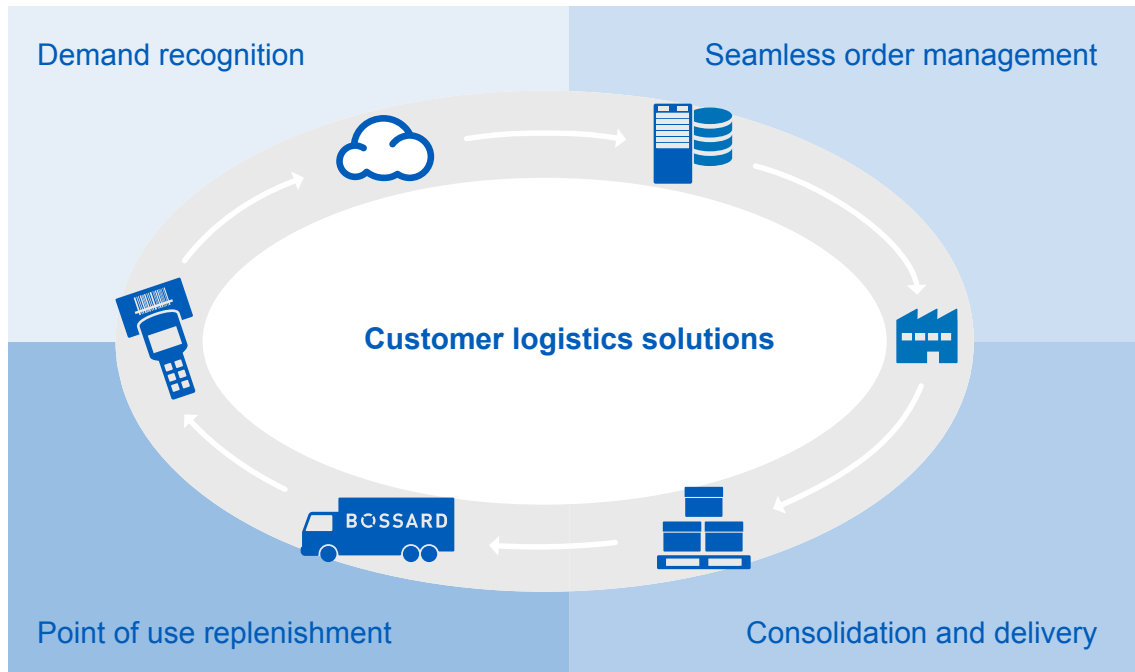

- availability
- technical information
- alternative products

These strengths characterize Code with e-shop :

- adaptation to your needs
- connection to the e-shop
- shopping cart can be edited
- multiple, customizable delivery addresses
- current and previous orders can be viewed

Code with e-shop offers you the following benefits:

- lower your total cost of ownership
- increase your efficiency
- enhance your profitability
- more time for your core activities

BOSSARD CODE WITH E-SHOP**Order process with Bossard Code**

1. When minimum levels are reached, data is recorded with the scanner and imported electronically into the Bossard e-shop.
2. Modifications and additions can be made in the created shopping cart if necessary.
3. The order is then completed in the e-shop.
4. Depending on the pre-defined agreement, we deliver the material either to the dock or directly to the point of use.
