

PRODUCTS & ASSEMBLY TECHNOLOGIES

Medium duty products

CONTROL ELEMENTS

- Quick and low-cost installation
- Multiple options and configurations possible
- Drop-in replacement for existing industry-standard panel preparation

CAGE NUTS

- Suitable for materials too thin or soft
- High thread stripping resistance
- Compensate positioning errors
- Available grounding versions to ensure electrical conductivity

CLINCHING FASTENERS

- Fast and clean with double-side access
- Provide easy maintenance access
- Eliminate need for screws and allow for quick removal
- Flush finish with no protrusion on back side

CD STUD WELDING

- Efficient welding of small diameter studs
- Hole-free & one-sided welding process for limited access applications
- Leaves no visible mark on panel A-side
- Enable welding of aluminum & copper panels

INSTALLATION EQUIPMENT

- Clinching equipment with automated part feeder
- Simplifies the operator job and increases quality thanks to gun LED display
- More options are available on request
