BOSSARD SMARTBIN MOBILE**ORDER PROCESS WITH BOSSARD SMARTBIN MOBILE**

1. The parts are stored in the mobile trolley as close as possible to the point of use. Weight sensors constantly monitor stock levels and send wirelessly data to Bossard.
2. When the reorder point is reached, replenishment orders are triggered automatically.
3. Bossard consolidates the ordered items into one shipment which is sent to the customer.
4. Depending on the pre-defined agreement, we deliver the material either to the dock or directly to the point of use.
5. SmartBin automatically recognize box refills and offer therefore full cycle control.
