

BOSSARD

Proven Productivity

Contract Manufacturing
Design, Prototyping and Production Partner

PRODUCT DEVELOPMENT MANAGEMENT

Design phase

Working in collaboration with you, we look at the product needs to help you ensure effective design and streamline your product development.

Updates on Latest Technologies

Product concept

- Improve your product ideas
- Provide the latest fastening technologies
- Seminars and e-learning platform to deepen your fastening knowledge

Cost Saving Opportunities

Design optimization

- Ensure the technical feasibility and economic viability of your design
- Identify design cost saving potentials
- Streamline your design to reduce purchasing, warehousing and assembly cost

PRODUCT DEVELOPMENT MANAGEMENT

Prototyping phase

We facilitate your prototyping efforts by providing expert laboratory testing at our facilities, and make accessible your most commonly used fasteners for immediate availability.

**Comprehensive Set
of Services**

Test services

- Fulfil all your testing needs in one of our 7 test centers in Asia, among which one is ISO-17025
- Risk reduction and quality assurance through the fulfillment of your statutory requirements
- Varied tests: mechanical, chemical & functional

Faster Turnover

Sample bank

- Browse our wide range of fasteners to identify and gain access to the fasteners required for immediate use in your designs
- Availability of the fasteners helps to facilitate fast turnaround during testing or prototyping

PRODUCT DEVELOPMENT MANAGEMENT

Production phase

Our Industry 4.0 ready logistic systems paired with our assembly technologies maximize your production efficiency while maintaining the best quality level of your products.

Digital Transformation

Smart factory

- Ensure the receiving of the right products at the right time
- Transform your manual ordering process into an automated and intelligent system
- Streamline supplier base from multiple to one

Increased Overall Productivity

Product and assembly technologies

- Diverse product solutions and installation equipment suited to your most stringent needs
- Fitting solutions to lower total cost of ownership
- Optimize your production line, leading to quality improvements and assembly cost reduction

CONTRACT MANUFACTURING

Product development management

Any product development process usually involves a series of stages that can be separated into three main phases - Design, Prototyping and Production phase.

**Design phase** 

We tap on our expertise to look into the best ways to optimise our customers' product ideas ensuring their successful product development.

Prototyping phase 

We utilize our global network of laboratories to run the necessary tests for our customers' designs to ensure their blueprints are ready for mass production.

Production phase 

We optimize our customers' production in a smart and lean way using our intelligent logistics systems and tailor-made product solutions.

BUSINESS MODEL

Proven Productivity

From years of cooperation with our customers, we know what makes a proven and sustainable impact. We have identified what it takes to strengthen the competitiveness of our customers. Therefore we support our customers in three strategic core areas.

Firstly, when we find optimal **Product Solutions** by evaluating and selecting the best fastening part for the intended function in our customers' products.

Second, from the moment our customers begin to develop a new product, our **Assembly Technology Expert** services deliver the smartest solutions for all possible fastening challenges.

And third, we optimize our clients' production in a smart and lean way using **Smart Factory Logistics**, our methodology, intelligent logistics systems and tailor-made solutions.

Understood as a promise to our customers, "Proven Productivity" contains two elements: Firstly, that it demonstrably works. And secondly, that it sustainably and measurably improves the productivity and competitiveness of our customers.

This philosophy motivates us each and every day to always remain one step ahead.
