

Press Release

Bossard Group

Bossard lays the foundation for further growth in South Korea

Zug, August 13, 2013 - The new headquarters and distribution center in Cheonan City near Seoul, South Korea, was completed in just eight months. Spanning an area of over 11,000 m², the new construction offers space for over 100 work stations, while the distribution center has capacity for over 1,200 tons. The new building has enabled Bossard to lay the foundation for further growth in one of the most significant economic regions in Asia.

David Dean, CEO of the Bossard Group, explains: "Our successful business development in South Korea has necessitated an increase in capacity. In doing so, we have also created the ideal prerequisites for being able to serve our customers better and quicker."
