

BOSSARD SMARTLABEL

Flexible – transparent – adaptable

SmartLabel is an intelligent label which can be fixed on every possible storage bin. It displays all relevant product information as well as real-time order status and delivery date. Users can also release orders directly at the point of use at the touch of a button. The SmartLabel display is based on the e-paper technology. It is easy to read under all lighting conditions and a long battery life ensures minimal maintenance.

FEATURES

	VISUAL PROOF
	WIRELESS
	MOBILE
	ADAPTABILITY – Use of existing infrastructure
	REAL TIME INFORMATION UPDATE
	FULL CYCLE CONTROL
	ARIMS – Access to Operation Dashboard

YOUR BENEFITS

- streamlined process thanks to direct ordering at the point of use
- transparency ensures trust and reliability
- maintenance-free
- lower your total cost of ownership
- increase your efficiency
- enhance your profitability
- more time for your core activities

BOSSARD SMARTLABEL**ORDER PROCESS WITH BOSSARD SMARTLABEL**

1. The order button on the label is activated at the touch of a button once the minimum level is reached.
2. Data is automatically sent to Bossard online where it is processed. The order status and delivery date are then appearing automatically on the label.
3. Bossard consolidates the ordered items into one shipment which is sent to the customer. Throughout the entire process, the latest status continues to appear on the label.
4. Depending on the pre-defined agreement, we deliver the material either to the dock or directly to the point of use.
